

## Martina Srblin's Biography

**Martina Srblin** is The Multi-Passionate Entrepreneur that will never tell anyone to stick to one thing only, and will always support people's multi-faceted aspirations. She understands the challenges that multiple passions bring about, and is *determined to show the entrepreneurial world an efficient way to create a coherent business – or, in fact, a whole galaxy of businesses!*

Martina has a **background in Law, and a Master of Laws degree in Law and Economics** from the Utrecht University (The Netherlands). She is currently working on her PhD dissertation on the development of the international outer space law in the 3rd millennium, but after dedicating some years to practicing law, she is now wholeheartedly a full-time entrepreneur.

She embarked on The Multi-Passionate Entrepreneur adventure because she wanted to amalgamate her **law and economics know-how** with **business training, information marketing wisdom**, and **cutting-edge thinking**, to come up with systems and content that would powerfully catapult her fellow entrepreneurs to new heights of success.

**Martina's specialty is awakening the efficient passionistas in her clients**, as both the passions and the efficiency are already in them, but one or both might be dormant, or lost in a place of extreme overwhelm. With her laser-focused insight of a visionary attentive to details, she leads them to an efficiently organized and thriving business oasis.

Namely, **Martina's mission is to empower people to reach their full potential through stepping up into their brilliance**. As an energetic and joyful ambassadress of freedom and uniqueness, she is passionate about sparking enthusiasm for embracing possibilities in anyone she meets. She is a relentless learner, and a pioneer at heart – a true explorer of new exciting opportunities to grow and prosper.

**Martina is also a polyglot**, speaking, and constantly improving, 8 foreign languages. She learnt to speak her first foreign language fluently at the age of three, and as the years passed, she was falling more and more in love with language learning. Today, she juggles with the lucky eight, and plans to add another one to the bouquet – Chinese!

Besides The Multi-Passionate Entrepreneur, Martina is **the founder of two other sparkling brands, Language Learning Magic, and Uspesna podjetnica** (translated from Slovene, it means "successful femme-preneur").

The globally oriented **Language Learning Magic**, born out of Martina's passion for foreign languages, helps anyone who needs and/or wants to learn ANY foreign language do so in a fun and efficient way, while Uspesna podjetnica has been established to finally bring information marketing to the Slovene market, particularly to Slovene women who want to leverage their time, money and energy, and skyrocket their bottom line, as well as their overall happiness.
